

## Program for Dansk Hypertensionsselskabs årsmøde d. 21-22/4 - 2023

Klarskovgaard, Korsør

### Friday 21/4-2023

#### **CT-imaging for CV risk stratification (Danish), Chair: Christoffer Krogager**

- 13.00-13.25 Coronary Artery Calcium Score vs. Plaque morphology (20 + 5 min)  
Lektor Martin Bødtker Mortensen, Institut for Klinisk Medicin - Hjertesygdomme, Aarhus Universitet
- 13.25-13.50 Five-Year Outcomes of the Danish Cardiovascular Screening (DANCAVAS) (20 + 5 min)  
Professor Axel Diederichsen, Kardiologisk Afdeling, OUH
- 13.50-14.05 Use of Coronary Artery Calcium Score in T2D (The STENO INTEN-CT Study)(10+5 min)  
Professor Per Løstrup Poulsen, Institut for Klinisk Medicin - SDCA-Steno Diabetes Center Aarhus / Professor Axel Diederichsen, Kardiologisk Afdeling, OUH
- 14.05-14.20 Triglyceride-glucose index improves risk prediction, Marie Kofoed Blicher (10+5 min) (English)
- 14.20-14.30 Discussion (10 min)
- 14.30-14.45 Coffee

#### **Lifestyle intervention – Is it worth while doing? (Danish), Chair: Michael Hecht Olsen**

- 14.45-15.10 Will a national program on screening and lifestyle intervention reduce the CVD burden in society? (20+5 min)  
Professor Torben Jørgensen, Center for Klinisk Forskning og Forebyggelse, Bispebjerg og Frederiksberg Hospital
- 15.10-15.35 eHealth – a way to improve lifestyle intervention? (20+5 min)  
Post doc Carl Joakim Brandt, Forskningsenheden for almen praksis, Institut for Sundhedstjenesteforskning, Syddansk Universitet
- 15.35-15.50 The efficacy of salt restriction in patients with hypertension, Camilla L. Duus (English)
- 15.50-16.05 Plasma levels of glycyrrhizin and 18 $\beta$ -glycyrrhetic acid, Jakob L. Wetche (10+5 min) (English)
- 16.05-16.15 Discussion (10 min)
- 16.15-16.30 Break

#### **Hypertension in children (Danish), Chair: Annemie Stege Bojer**

- 16.30-16.55 Hypertension in children - Guidelines (20+5 min)  
Simone Markøw, overlæge, Børne- og Unge afd., Amager-Hvidovre Hospital
- 16.55-17.20 Pediatric Blood pressure - effects of obesity and genetic predisposition to adult hypertension (20+5 min) - virtuelt  
Morten Lund, læge, Ph.D, Holbæk sygehus, Rigshospitalet og Københavns Universitet
- 17.20-17.30 Discussion (10 min)
- 17.30-17.45 Age-dependent association of NT-proBNP with obesity, IR, and inflame., Thomas B. Olesen
- 17.45-18.00 SGLT2-inhibition improves vascular function in ptt. with T2D, Didde K. Kristensen (English)
- 18.05-18.30 DAHS General Assembly (Danish)
- 18.40-19.10 DAHS walk or run
- 19.30 – Dinner

## Saturday 22/4-2023

### **Salt - for kidneys, blood pressure and society (Danish), Chair: Jane Stubbe**

- 9.00-9.25 Treatment with amiloride for Kidney transplant recipients and CKD patients (20+5 min)  
Læge, Ph.D ,Gitte Rye Hinrichs, Odense Universitetshospital, Nyremedicinsk Afdeling, Syddansk Universitet, Institut for Molekylær Medicin, Kardiovaskulær og Renal Forskning
- 9.25-9.50 High erythrocyte sodium sensitivity is associated with delayed excretion of a sodium load in healthy subjects (20+5 min)  
Professor, Ph.d., Jesper Nørgaard Bech, Universitetsklinik for Nyresygdomme og Blodtryksforhøjelse, Gødstrup Hospital og Aarhus Universitet
- 9.50-10.25 Can sodium intake in society be reduced - and will it make any sense? (30+5 min)  
Sektionschef, klinisk professor, Ph.d. Ulla Toft, Center for Klinisk Forskning og Forebyggelse, Frederiksberg Hospital
- 10.25-10.35 – Coffee

### **Free presentations, Chair: Ali Asmar**

- 10.35-10.50 Efficacy and safety of a fixed-dose combination of atorvastatin/amlodipine/perindopril, Natalia Giménez-Montesinos (10+5 min) (English)
- 10.50-11.05 Urokinase in kidney injury in DOCA-salt murine model, Marie L. Bach (10+5 min) (English)

### **Secondary hypertension (Danish), Chair: Bodil Gade Hornstrup**

- 11.05-11.35 Secondary hypertension –how to find it!  
Professor Per Løgstrup Poulsen, Institut for Klinisk Medicin - SDCA-Steno Diabetes Center Aarhus
- 11.35-12.20 Case discussion
- 12.20-12.30 Closing remarks
- 12.30-13.30 Lunch and departure
