

Program for Dansk Hypertensionsselskabs årsmøde d. 26-27/4 - 2024

Klarskovgaard, Korsør

Friday 26/4-2024

ESH2023 Guidelines for managing hypertension, Chair: Jane Stubbe

- 13.00-13.20 Main changes in ESH guidelines including HMOD (15 + 5 min) **Thomas B. Olesen**
13.20-13.40 When to measure HMOD in patients with hypertension (15 + 5 min), **Kent L. Christensen**
13.40-14.00 The pathophysiology behind the different types of HMOD (15+5 min), **Ulf Simonsen**
- 14.00-14.15 Discussion (15 min)
14.15-14.25 SGLT2i and renal perfusion (7+3 min), **Steffen Flindt Nielsen**
14.25-14.35 Age-dependent association of NT-proBNP with obesity, insulin resistance, and inflammation in T2D. (7+3 min), **Alaa Sharfo**
- 14.35-14.50 Coffee

The association between BP and CV outcome, Chair: Thomas Bastholm Olesen

- 14.50-15.10 Is the association linear or J-shaped? (15+5 min) **Anne Langsted**
15.10-15.30 Is the association independent of age, diabetes and CV disease? (15+5 min) **Michael H. Olsen**
15.30-15.50 Is the association present in subjects between 18 and 40 years? (15+5 min) **Peter Nilsson**
15.50-16.00 Discussion (10 min)
16.00-16.10 Achieved SBP<130 mmHg preserves kidney function in DM and non-DM hypertensive patients (7+3 min), **Eirik Olsen**
16.10-16.20 Kidney protection by achieved average low BP in pts. with proteinuria. (7+3 min), **Julian E Mariampillai**
- 16.20-16.35 Break

The working group on reducing salt intake in Denmark, Chair: Ali Asmar

- 16.35-16.55 Evidence for salt reduction and is it possible in DK (15+5 min) **Peter Bie**
16.55-17.10 Reduction of salt in daily clinical practice (10+5 min) **Bodil Hornstrup**
17.10-17.20 Discussion (10 min)
17.20-17.30 Development of AI powered digital health solution to support hypertensive patients (7+3 min), **Leo Rosenbaum**
- 17.30-18.10 DAHS General Assembly (Danish)
18.20-19.00 DAHS walk or run
19.30 – Dinner

Saturday 27/4-2024

How to measure BP depending on patient and situation, Chair: Bodil Hornstrup

- 09.00-09.15 The advantages of 24-hour ABPM (10+5 min), **Tine W. Hansen**
09.15-09.30 The advantages of home-BP measurement (10+5 min), **Nikolai Hoffmann-Petersen**
09.30-09.45 The advantages of different types of unobserved office BP measurements (10+5),
Sebastian Nielsen
09.45-09.55 Discussion (10 min)
09.55-10.05 One size does not fit all: Universal cuff overestimates BP in patients with large arm
circumferences. (7+3 min), **Esben Laugesen**
10.05-10.15 24-hour BP and unobserved BP measurements in a renal outpatient clinic. (7+3 min),
Bodil Hornstrup

10.15-10.35 – Coffee

Is it time for a uniform BP goal for all patients? (Danish), Chair: Michael Hecht Olsen

- 10.35-10.47 The cardiologist (10+2 min), **Michael Hecht Olsen**
10.47-11.59 The nephrologist (10+2 min) **Niels Henrik Buus**
10.59-11.11 The geriatrician (10+2 min), **Ellen Holm**
11.11-11.23 The general practitioner (10+2 min), **Bo Christensen**
11.23-11.45 Discussion (22 min)
11.45-11.55 Colchicine as a novel therapy to treat hypertension. (7+3 min), **Thomas Jepps**
11.55-12.05 Effects of PTRAs for atherosclerotic renal artery stenosis in high-risk patients (7+3 min),
AA Brandtzæg and Sebastian Nielsen
12.05-12.15 Is the effect of SGLT2i on BP related to eGFR? (7+3 min), **Charlotte Møller**
12.15-12.30 Closing remarks
12.30-13.30 Lunch and departure
